

Winners of Green Your School Contest 2017

Indian Green Building Council (IGBC) organized the Green School Contest, which provides schools an opportunity to inspire, motivate and engage the students to green their respective schools using **IGBC green schools rating system** as a guide. Students from 8th to 10th standard participated from all over India. The team from PSBB T. Nagar presented existing green practices at school and also offered 10 innovative ideas (water and energy conservation, education and awareness, digital ideas, reducing paper usage, reusing student consumables and increasing green cover) to increase the sustainable development. Out of 252 schools that enrolled, 22 were shortlisted by the jury and only the three best presentations were selected as finalists for the national level presentation at Jaipur on 6th October 2017. Our school won the First prize in Green Your School Contest 2017, under the category “Benefits to School and Society”. The team members from class 8-Pranav Arun, N. Manish and P.L Shalu along with the guide teacher Mrs. Priya Narasimhan were awarded certificates. The school received a trophy and prize money of Rs.2,50,000 as financial aid to implement these green ideas in the campus.

We are very proud of this prestigious achievement at national level and look forward to working towards making our school greener.
