

TRANSPORTED TO A MAGICAL WORLD

18th January 2018 was a very exciting day for children of PKG to class 3. They were treated to a magic show in Sri YGP auditorium.

A well-known magician, Mr. Rajesh performed the show which received overwhelming response from our students.

Mr. Rajesh mesmerised the students with his wonderful tricks such as- ‘The obedient Walnut’ which obeyed the orders given by him,, the squeaky squirrel from his handkerchief made everyone wonder that how can one create a live squirrel from a handkerchief!! ,Flying table raised many questions amongst the young audience in the same way as cloth rope from his mouth, disappearing ball, things arising from his hat, math magic using beads and twine magic tricks. Dislocation of the ball on its own amazed the students. They expressed that they loved the show and certain tricks like flying table, cloth turned into squirrel and pieces of paper turned into strings etc. They were extremely excited and enjoyed every moment of it. Students were left wondering how the tricks could be performed, asking “How did it happen?”, “How could the table fly?” etc. They were given scientific explanation for a few tricks too. Students were totally involved and engrossed in the show.

It was a good gesture to organize such a show for the students and it will be fondly remembered by them.
