

The Black Balloons

On the 10th of July, 2018, the class Seven students of PSBB T. Nagar were taken to a show at Little Theatre in Egmore. The show titled 'Black Balloons' was wonderful and it portrayed the concept of death and attempts made to escape it.

The main character of the play was 'Paati' and the others were the nurse, Mary kutti, the doctor, Dr. Sweety and death. The play showcased the attempts made by Patti, Mary Kutti and Dr. Sweety to stop death from taking Patti but in the end there is no escaping death. As her last wish, Patti asks death to let her sleep peacefully.

The show was amazing and the actors playing the characters were mind-blowing and excellent. The play was a mix of music, dance and lights. I loved the music part of the play the most. I definitely learnt from this play that death is something that can happen at any point of time and is a mystery to all of us. We just have to live every moment to its fullest and enjoy life.
