

## PSBBMUN - 2018

**“Let us not deceive ourselves. We must elect world peace or world destruction.”**

**-Bernard Baruch**

The common cliché of the youth inheriting the earth and equipping themselves to handle it, sometimes finds its way into reality of the present; dawning upon people at times of contemplation. It is revealed at these crucial junctures that a fact so real, would find itself offended by the cliché it has been reduced to.

PSBB Model United Nations 2018 sought to not only dispel the air of corniness associated with the idea, but also to cement it in the minds of hundreds. With the collective effort of students and faculty, PSBBMUN 2018 was the result of months of meticulous planning and execution. The conference, comprising six different committees, was held on the 11th and 12th of October and had students of various city schools flocking to PSBB School, KK Nagar, to participate. The two day event saw students debate and discuss issues pertinent not only to our country, but to the world as a whole. Delegates discussed a plethora of agendas, ranging from the Russian occupation of Crimea, to the prevention of environmental crime. The agendas were carefully prepared and the debate expertly guided by the students and alumni of PSBB, the objective being to pass resolutions that would ideally initiate the much needed change our world requires.

The Secretary General, Nithin Karthick, XII E2, was fervent in his speech during the opening ceremony when he said “I appeal to each and every one of you to take home more than just an award or a certificate at the end of the next two days...”

It was more than evident that every single participant indeed left PSBBMUN one step closer to being the global citizens of tomorrow.
