

## World Environment Day Celebrations @ PSBB T. Nagar

World Environment Day was celebrated in @ PSBB T.Nagar on 18<sup>th</sup> June 2019 around the theme “Beat Air Pollution” that is a pressing environmental concern.

The programme began with a presentation by Simran of class 8B followed by screening of two videos that showed the importance of conserving the environment thereby combating a global crisis. Students clearly understood that by changing their everyday lives a little bit, they can reduce the amount of air pollution, thwart its contribution to global warming and its effects on their own health.

Students also took a pledge to devote their time in helping to make their surroundings clean and green. Vice Principal Mrs. Durga Chandrasekar proposed few initiatives that could be taken up by students in our continuing endeavor towards a greener environment. These include Tulsi planting in apartment complexes of students, tree planting, revival of sparrows, bird feeding, setting up of vertical gardens, segregation and composting of wastes in school and residences of students and their neighbours, safe e-waste disposal and recycling and reusing things. Students were asked to volunteer for the activities that they would like to participate in so that sustainability could be ensured.

Simple habits that students could inculcate to do their bit to save water, electricity and contribute to a green environment were discussed and put up on the notice board

The programme was an effort to reiterate the need for each one of us to understand the enormity of the global issue that threatens the environment and be part of the solution.
