

Insights on potentials of Indian Economy

On June 28th 2019 “Eminent Economists” Sri S.K.Aggarwala, Sri Pramod Dalmia and Sri Tilak Raj Rustogi visited our school to share their insights on economics.

The event started with an invocation to the almighty, following which Pramod Dalmia spoke about his life and the importance of economics as a subject. Our next speaker was Tilak Raj Rustogi who explained to the students the theory of Government Budget and its various aspects. He also explained the concepts of National Income and gave us some easy tips to solve the problems. The students were pleased and inspired by his teaching methods and his unique technique of approaching the subject. Sri. S.K.Aggarwala was very keen on answering various doubts and questions put forth by the students. He answered each question clearly and thoroughly.

Students had a wonderful time assimilating his ideas and suggestions of how to go about studying economics

Overall it was a wonderful learning experience for the students. Our special thanks to the school management and the teachers of the Commerce Department for arranging such a memorable learning experience in our school. We look forward to more such lectures in the future.
