

REVERBERATIONS 2019

DAY 1

Reverberations, one of the most anticipated cultural events in Chennai took off with a spectacular flash mob performed by the students of K K Nagar and Nungambakkam. Its simplistic choreography and excellent coordination spoke volumes about the dedication of the dancers and choreographers and was the best possible curtain raiser for the day. A short while later, the events for the day began with Shipwreck. Shipwreck, as, always attracted a huge crowd which gladly showered the participants with cheers and applause. A similar scene could be seen next door in Green Screen as clips changed from Chhota Bheem to the Indian Parliament, from Times Now debates to Kamal Hassan classics.

As the day unfolded, events like Block and Tackle, JAM and Surprise Event joined the list of flagged events and became the ground zero for explosive cheers. The ground was occupied with sportsmen gearing up for Futsal and Box Cricket while on the other side teams were engaged in a battle of athleticism in seven stones. Games in reverberations are never limited to the conventional, FIFA, DOTA and mind games gave those who wished to play beyond the physical level a stage.

DR Mrs Y.G.P.Auditorium was jam packed the whole day. The group dance and the host dance were spectacular shows. Channel Surfing another showstopper, gave the judges a tough time. With a hilarious interpretation of every channel, Channel Surfing was one of the best events of the day. Overall, day one was a massive hit filled with fun and colour that everyone is bound to remember.

DAY 2

Day one of reverberations set the bar high, but day two managed to break the bar in two with a stellar music host performance, a hilarious Winners Event and many more memorable moments. The Surprise Event and Quiz finals, both being extremely popular among students gave a good kick start to the day. Next, was Band, which true to the theme 'REELive' took us back to a time of classics and the highly anticipated host performance, which took our breath away with its sick beats, electrifying guitar solos and spot on vocals.

Face painting and mono acting were a hub of artistic minds, while creative writing was one for creative minds, for those with a knack for humour there was ADZAP. The participants outdid themselves and showed everyone how it's done. The sidelines of the ground was lined with food stalls where students thronged to taste the delicacies.

All events of the day built up to the Winners Event, with winners from all flagged events. Six students battled for the coveted title of 'Reverberator' starting with a no elimination talent round. Eliminations began from round two which was Movie Review, followed by Channel Surfing, then ADZAP and finally Shipwreck. Pragadeesh and Venkatesh were neck to neck at a point, However, Pragadeesh ended day two with a bang by winning the title and the latest I Pad as his prize.
