21st March 2022

Save Our Soil Campaign

On the occasion of the Launching of 'Save Soil' campaign on behalf of the students of the PSBB Group of Schools, I take this opportunity to seek the blessings of our Guru Dr.Mrs.YGP. As a family of Earth Buddies let us contribute our little for this noble cause of conserving the soil.

When children get involved in any activity the spirit and enthusiasm that exudes envelopes positivity making it a success. So we hope, that this awareness on the importance of soil will reach the parents, teachers, alumni and many more across the globe.

Let us inhale the mystic fragrance of Mother earth, one among the Panchaboothas that sustains life on earth with prosperity. Let us offer our gratitude to the soil with reverence for it is the basis of a harmonious bond with Nature.
