

## **MESSAGE FROM PSBB 20th April, 2020**

Dear Parents ,

We hope All is well with you and your family .

The inevitable situation of 'Stay @ Home' and 'Social Distancing' has indeed taught us all to adapt to unexpected Life Styles and Daily Schedules . Amidst this,our Academic Schedules and 'Teaching Learning' modes have undergone a major shift too.

At this juncture , we wish to acknowledge the understanding and cooperation of Parents , Students and Teachers . We have received several positive feedback from parents and appreciation from students themselves for adopting several digital methods to impart lessons without missing out on time and keeping the students well engaged with academics.

We don't have a choice either at this moment and teachers, we must say , have taken these challenging times to put in extra efforts during 'Work from Home' and to make 'Keep in Touch with Academics' meaningful and interesting for their students . (Amidst their hectic house chores without external assistance !) Students , we are told, have also found it useful and have been engaging themselves productively with the lessons and assignments sent to them.

Yes, while we have been advocating to spend less time on social media and not encourage usage of mobile phones all along , we have been forced to use these now for our Academic Pursuits to continue. This has come to stay for sometime and we trust students will use them discreetly, judiciously and restrict it to Constructive Learning .Their digital safety and security is equally important .

We also wish to request you to oversee and monitor the students' usage of digital media and their academic progress.

We once again thank you all for your cooperation & take this opportunity to 'Wish you Safe and Healthy Times'

Mrs.Sheela Rajendra

Dean & Director and Correspondent

PSBB Group of Schools
