

### Science Day Celebrations, 2021

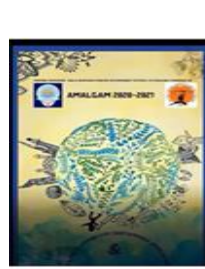

'The real growth of a country is in the hearts, minds and souls of young men and women of the country,' said Sir C V Raman. The Science Day is celebrated every year to commemorate the discovery of the 'Raman Effect'. Our school's Science Department organized the Science Day Celebrations even during the pandemic scenario on 5<sup>th</sup> April, 2021, through the virtual platform to spread the vitality of Science

The chief guest was A V Balasubramaniam, who has been working in works relating to various aspects of "Traditional Indian Sciences and Technologies." The Guest of Honour was Miss Sahana Dasharathi, a practising nutritionist.

This year's riveting theme was "Fruits & Vegetables" and "Creative Economy for Sustainable Development." The students of class 9 and 11 explained and demonstrated concepts linking Science and fruits and vegetables. It was enthralling to know how much Science was involved even in the fruits and vegetables that we consume everyday. The Chief Guest, Mr. A V Balasubramaniam made us realize that as responsible citizens, it is in our hands to follow sustainable development for a bright future. The Guest of Honor, Miss Sahana Dasharathi emphasized on the need to include all kinds of fruits and vegetables to lead a healthy lifestyle.

The digital Science magazine, Amalgam 2020-2021 was released. The concept of creative economy is the upcoming trend for ensuring sustainable development. There was a presentation to enlighten the future pillars of our nation, the students, on the importance of it.

The students were inspired to keep themselves fit as well as work to evolve a creative economy for a **fruitful** development of the nation!

**Medical devices**  
 The devices used to diagnose, prevent and treat COVID-19, includes diagnostic tests, ventilators, and personal protective equipment (PPE) – including surgical masks, face shields, respirators, gowns, and gloves.

**1987**  
 Herpes genome determined

**1935**  
 Schrodinger's cat has joined the chat... and it hasn't.
