

## PSBB SENIOR SECONDARY SCHOOL, SIRUSERI

### How to make Dream catchers?

*'Craft makes our homes more human.'*

On a lovely Saturday afternoon of 28<sup>TH</sup> August, we gathered virtually to stimulate our creative juices and channel our energy into a beautiful form of craftwork – **Dream Catchers**. Some of the 11<sup>th</sup> grade students joined us. We started off with a presentation by one of the students, teaching us how to make these dream catchers.

Dream catchers owe their origin to a Native American legend, which says that when we look at these hung above the head, before sleeping; they filter the good dreams from the bad ones and give the sleeper a peaceful night's rest. Our teachers provided us encouragement and support along the way and we are very grateful to them. We look forward to the next session as this was a very enriching experience.

**Goodbye to night mares!**
