

## Disabilities- Give in or Fight them out?

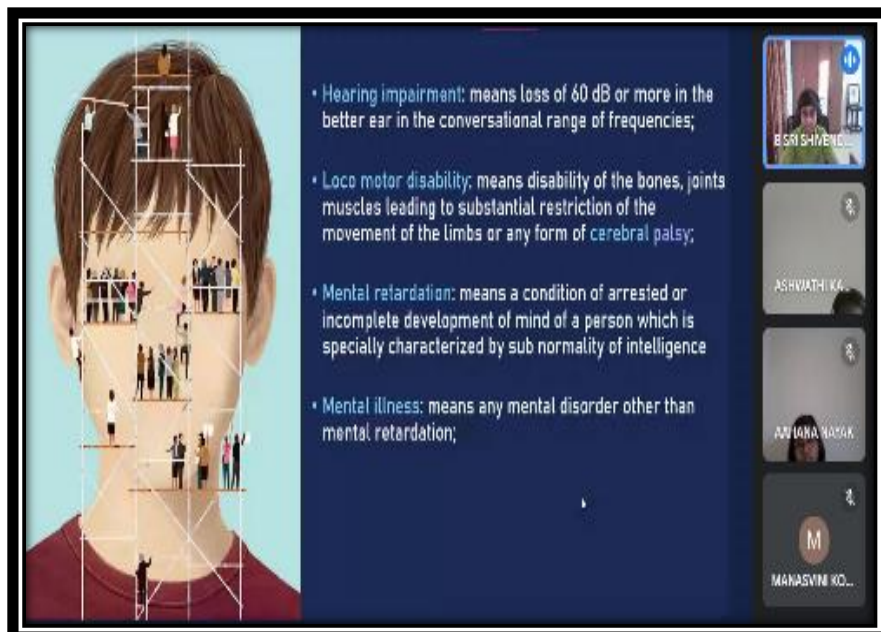

International Day of Disabled Persons is observed on 3<sup>rd</sup> December and the theme for our weekly G. A. was *'How disabilities of any kind shouldn't limit us'*

The weekly virtual GA on 3<sup>rd</sup> Dec began with a melodic sloka rendered by Ashwathi. Saanvi, with her lilting voice sang an inspirational folk song on how people with disabilities of any kind, should overcome any situation with grit and determination

Moving on, we got to hear a speech by Sai Prahlad on why and how disabilities shouldn't stop us from achieving success, which was encouraging and pertinent. We were further enlightened with a presentation by Shri Shivendra on the various forms of disabilities. It was certainly inspiring to hear about many famous personalities who braved their shortcomings with fortitude and how they emerged successful in their lives.. The information on how 3<sup>rd</sup> December came to be a red letter day and the message on the tri-cloured disability flag set us glued to our seats and realise that 'Disability is a matter of perception'!

### Shri Shivendra sharing his PPT on Various forms of Disabilities
