

Christmas Comes But Once A Year But GA s Every week.

December 25th is a public holiday in many countries. Christmas is celebrated religiously on this day by a majority of Christians, as well as culturally by many non-Christians. It forms an integral part of the holiday season with the annual calendar closing on a joyful note.

It is not surprising that the theme for this week`s virtual General Assembly for class VIII on 17th December was Christmas. The anchors did a great job of ushering in the festive spirit.. The two teachers present were Mrs.Leena Joshi and Mrs.Paushali who greatly enjoyed the impeccable display of talents and gave their valuable feedback. The show began with a magic trick. All of us were surprised as the student rightly chose the Christmas themed cards. Following this was a quiz related to this winter festival.It was well hosted and everyone racked their brains to answer the interesting questions put forth by the quiz masters .Everyone learnt a lot and had loads of fun in the process! A video recording of the students` singing a Christmas song was screen shared. We were all mesmerized by the melodious performance, for it was a sight to be seen as well! Last but not the least, we had two students who played the guitar and the keyboard for a well-known Christmas carol that raised our holiday spirits even more! It was phenomenal!

Merry Christmas to everyone!
