

## **A Forum Appreciating Math!**

The Math Appreciation Forum (MAF) of PSBB KK Nagar was formally inaugurated for the year 2022-23 on 30th June 2022. The event started with a divine invocation, followed by the introduction to the purpose and culture of the forum - a means of enjoying mathematics as an art- by the Principal and Head of the Mathematics Department, Mrs Geetha Govindarajan. The Mathematics Secretary U.Shreyas (12 F2) followed suit, spelling out the series of events planned for the upcoming academic year. Following this, students were introduced to the Chief Guest for the day, Mr Gautam Umashankar, alumnus, PSBB K K Nagar. In an intriguing and engaging lecture on combinatorics, Mr Gautham aptly stated, “Math is not always for the useful things. Sometimes, when you have fun with it, something useful pops up.” The questionnaire session that followed was just as appealing and lively as the lecture itself.

The session was enthralling and informative which certainly left the members of the MAF looking forward to many more incredible opportunities that awaited them as part of MAF.
