

Vibrant Hues

In keeping with the theme of Pre-kg class project 'Vibrant Hues', the Seminar hall was colorful with bright and aesthetic display of back drop for primary colors.

The project was designed with a rhyme, fashion show, an action song and group song.

How the secondary colors are obtained was well explained through demonstration by children. Connecting the colors to real life and the hands-on experience provided were delight to watch.

Children of LKG and UKG visited and enjoyed the show which concluded with a group song – “How many colors are there in the rainbow?” with resplendent lights displayed on the ceiling.
