

Wealth from Waste

The CBSE Regional Science Exhibition 2022-23 was held on December 15th and 16th 2022 at Lalaji Memorial Omega International School, Chennai, bearing “**Technology and Toys**” as this year’s main theme encompassing seven different sub-themes.

There were a total of 93 exhibits in two categories – juniors (Std. 6-8) and seniors (Std. 9-11). A total of seven exhibits in each category were shortlisted for participating at the Nationals in February 2023.

The team from PSBB T. Nagar comprising of Harshini Rajagopal and Shriya Kannan of 8C guided by their mentor Mrs. Jayashree Krsna, presented an exhibit titled “**Treasure from Trash**” under the sub-theme **Ëco-Friendly Materials** and has been selected for the Nationals. Some of the other exhibits qualified include ‘Power generation from Vehicular exhaust’ by Bhawan’s Rajaji Vidyashram, ‘Voice Controlled wheelchair’ by DAV, ‘Convex Lens based Solar Power generatio’n by RKM, to name a few.

About Treasure From Trash Project:

Treasure from Trash project aims to protect Mother Earth by responsibly reducing and recycling organic waste and also creating a number of toys using several eco-friendly materials that are available around us, such as coconut and pistachio shells, sea shells, coconut leaves, tamarind seeds, Vegetable and fruit peels and bamboo. A number of products made with recycled paper employing scientific principles and concepts can be effectively used in education as well as entertainment.
