

Travel - A Healthy Addiction

The children of UKG presented a project on transport titled “Going Places” accompanied by ELVES on 22nd December, 2022.

The participants spoke with such eloquence about the various modes of basic transport etiquettes while travelling in public which were portrayed through mime and role play.

The photo booth modelling in the shape of a hot air balloon and an airplane deserved a special mention. The audience participated with enthusiasm in the memory game. Students of all levels in the Kindergarten connected well to the ideas and enjoyed the travel experience.
